

The International Federation of Head and Neck Oncologic Societies

Current Concepts in Head and Neck Surgery and Oncology 2017

www.ifhnos.net

Purpose

- The purpose of the Federation is to provide a common platform for specialists involved in the field of head and neck cancer to interact in professional matters of mutual interest
- To conduct quadrennial world congresses with participation of multidisciplinary specialists
- To foster collaborative projects of mutual interest and research initiatives
- To sponsor local, regional and national meetings for continuing medical education
- To conduct global continuing education programs
- To offer On Line Fellowship Training programs

History

- Proposed to international leaders in head and neck in 1986
- Established in 1987 in London
- 16 founding member societies
- 53 current member societies
